9. OC received approval from the Deputy Director for Administration (DDA) for the provisioning of communications security assistance to the Defense Mapping Agency (DMA) in connection with the establishment of its Office of Telecommunications Services. OC will provide DMA with a series of briefings designed to increase their knowledge and understanding of all aspects of communications security.

12. MERCURY Program Office

25X1

b. Representatives from the Office of Information Technology (OIT) met with the MERCURY Program Office on 6 May and advised of OIT plans to utilize IBM's System Network Architecture (SNA) as the architecture for many of OIT's present and future requirements.

c. Preparations for Remote Factory Acceptance of the Packet Switch System continue. Test and integration of the Packet Assembler/Disc (PAD) has been progressing smoothly thus far. However, full software/system debug and dry run of the acceptance test procedures continue to be a slow process.

d. The Chief and Deputy Chief of the Project Management Division of OIT were briefed on the status and technical specifics of the MERCURY Program on 7 May. A tour of the packet switch testbed was also provided.
